SUMMER LEARNING

Broaden your skill set with these data driven professional development opportunities tailored for educators!

June 27, 2024
9:00-12:00 p.m.

Everyday Classroom Core Essentials

During this workshop, we help teachers understand the basics of effective teaching. We focus on evidence-based core beliefs that help create equitable learning environments for all students. Through text, discussion, and model lessons, we provide strategies to show teachers how to implement these expectations in the classroom.

Just in Time STAAR ELA

June 28, 2024
9:00-3:00 p.m.

This workshop is designed for elementary school teachers preparing students for the STAAR ELA test. Our evidence-based approach emphasizes comprehension strategies, writing, critical thinking, and test-taking skills. Through interactive activities and model lessons, we equip teachers with tools to improve students' reading abilities and confidence. Join us to empower your students for STAAR Reading test success and boost literacy achievement.

July 9, 2024
1:00-4:00 p.m.

Leading for Change

Diana Del Pilar
Chief of School Performance

This workshop is ideal for executives, managers, and educators seeking to refine their leadership skills for managing organizational transformations. Participants will learn core principles of change management, balancing attentive listening with assertive decision-making, and the dynamics of leading as a coach. The session will emphasize adapting leadership styles, enhancing self-awareness, and emotional intelligence for successful leadership during times of change.

COST

$150 per instructor for one session
