

OPPORTUNITY YOUTH & WORKFORCE PRODUCTIVITY IN TEXAS

House District #1
Rep. Gary VanDeaver

OPPORTUNITY YOUTH IN TEXAS

Young Texans aged 16-24 are crucial to not only our workforce but our economic future, yet **13.1% are neither in school nor working**. These opportunity youth and young adults (OYYA) need support to reconnect and become college or career ready.

In 2025, the Texas Workforce Commission plans to allocate **over \$80 million** in WIOA funds—the primary resource for OYYA—to youth programs. To secure Texas' prosperity, we must efficiently use these funds and improve coordination among stakeholders to help over one million OYYA reengage in education or employment.

POLICY PRIORITIES

Proposed Policy Recommendations

- Enhanced Fiscal Transparency:** Require aggregation of existing workforce data for Texans aged 16-24
- Strategic Planning:** Require local workforce boards to include strategies for engaging OYYA
- Increased Community Engagement:** Notify workforce officials when subsidized job creation exceeds 100 jobs

Policy Impact

- Improve program evaluation and enable policymakers to make data-driven decisions
- Promote population awareness and consistent, targeted approaches for OYYA needs
- Improve workforce preparation, including job training, childcare, and transportation support

HOUSE DISTRICT #1

2,406 youth ages 16-24 are **not** enrolled in school and **not** working (16%).

Opportunity youth	Count	Percent
Male	1,369	57%
Female	1,038	43%
No health insurance	740	31%
No college (age 20-24)	1,189	69%
Parenting	225	9%

IMPACT ON WAGES

On average, youth who experienced disconnection in **HD 1** make **\$12,668.00** less annually by age 28.

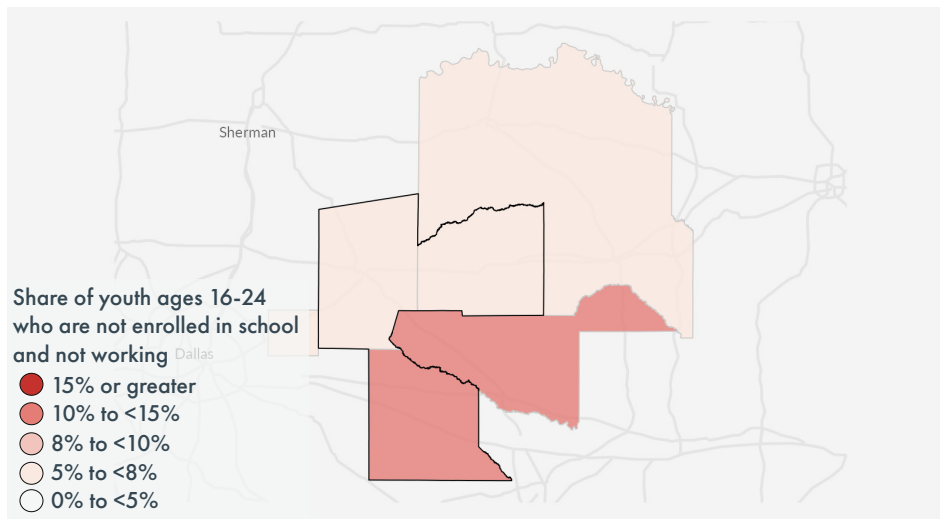

Sources: IPUMS American Community Survey 2018-2022; Wage impact data comes from Ray Marshall Center's analysis, as part of Evaluation of Services for Texas Opportunity Youth (ESTOY) project, of data from UT Austin's Texas Education Research Center (<https://sites.utexas.edu/raymarshallcenter/>). State average is the weighted average of all state districts.

Young Texans aged 16-24 are crucial to not only our workforce but our economic future, yet **13.1% are neither in school nor working**. These opportunity youth and young adults (OYYA) need support to reconnect and become college or career ready.

In 2025, the Texas Workforce Commission plans to allocate **over \$80 million** in WIOA funds—the primary resource for OYYA—to youth programs. To secure Texas' prosperity, we must efficiently use these funds and improve coordination among stakeholders to help over one million OYYA reengage in education or employment.

POLICY PRIORITIES

Proposed Policy Recommendations

- **Enhanced Fiscal Transparency:** Require aggregation of existing workforce data for Texans aged 16-24
- **Strategic Planning:** Require local workforce boards to include strategies for engaging OYYA
- **Increased Community Engagement:** Notify workforce officials when subsidized job creation exceeds 100 jobs

Policy Impact

- Improve program evaluation and enable policymakers to make data-driven decisions
- Promote population awareness and consistent, targeted approaches for OYYA needs
- Improve workforce preparation, including job training, childcare, and transportation support

HOUSE DISTRICT #16

2,431 youth ages 16-24 are **not** enrolled in school and **not** working (12%).

Young Texans aged 16-24 are crucial to not only our workforce but our economic future, yet **13.1% are neither in school nor working**. These opportunity youth and young adults (OYYA) need support to reconnect and become college or career ready.

In 2025, the Texas Workforce Commission plans to allocate **over \$80 million** in WIOA funds—the primary resource for OYYA—to youth programs. To secure Texas' prosperity, we must efficiently use these funds and improve coordination among stakeholders to help over one million OYYA reengage in education or employment.

POLICY PRIORITIES

Proposed Policy Recommendations

- **Enhanced Fiscal Transparency:** Require aggregation of existing workforce data for Texans aged 16-24
- **Strategic Planning:** Require local workforce boards to include strategies for engaging OYYA
- **Increased Community Engagement:** Notify workforce officials when subsidized job creation exceeds 100 jobs

Policy Impact

- Improve program evaluation and enable policymakers to make data-driven decisions
- Promote population awareness and consistent, targeted approaches for OYYA needs
- Improve workforce preparation, including job training, childcare, and transportation support

HOUSE DISTRICT #30

2,376 youth ages 16-24 are **not** enrolled in school and **not** working (14%).

OPPORTUNITY YOUTH & WORKFORCE PRODUCTIVITY IN TEXAS

House District #45
Rep. Erin Zwiener

OPPORTUNITY YOUTH IN TEXAS

Young Texans aged 16-24 are crucial to not only our workforce but our economic future, yet **13.1% are neither in school nor working**. These opportunity youth and young adults (OYYA) need support to reconnect and become college or career ready.

In 2025, the Texas Workforce Commission plans to allocate **over \$80 million** in WIOA funds—the primary resource for OYYA—to youth programs. To secure Texas’ prosperity, we must efficiently use these funds and improve coordination among stakeholders to help over one million OYYA reengage in education or employment.

POLICY PRIORITIES

Proposed Policy Recommendations

- **Enhanced Fiscal Transparency:** Require aggregation of existing workforce data for Texans aged 16-24
- **Strategic Planning:** Require local workforce boards to include strategies for engaging OYYA
- **Increased Community Engagement:** Notify workforce officials when subsidized job creation exceeds 100 jobs

Policy Impact

- Improve program evaluation and enable policymakers to make data-driven decisions
- Promote population awareness and consistent, targeted approaches for OYYA needs
- Improve workforce preparation, including job training, childcare, and transportation support

HOUSE DISTRICT #45

3,121 youth ages 16-24 are **not** enrolled in school and **not** working (9%).

Opportunity youth	Count	Percent
Male	1,744	56%
Female	1,377	44%
No health insurance	858	27%
No college (age 20-24)	1,088	47%
Parenting	244	8%

IMPACT ON WAGES

On average, youth who experienced disconnection in **HD 45** make **\$14,848.00** less annually by age 28.

Sources: IPUMS American Community Survey 2018-2022; Wage impact data comes from Ray Marshall Center’s analysis, as part of Evaluation of Services for Texas Opportunity Youth (ESTOY) project, of data from UT Austin’s Texas Education Research Center (<https://sites.utexas.edu/raymarshallcenter/>). Rep. Mike Olcott

OPPORTUNITY YOUTH IN TEXAS

Young Texans aged 16-24 are crucial to not only our workforce but our economic future, yet **13.1% are neither in school nor working**. These opportunity youth and young adults (OYYA) need support to reconnect and become college or career ready.

In 2025, the Texas Workforce Commission plans to allocate **over \$80 million** in WIOA funds—the primary resource for OYYA—to youth programs. To secure Texas’ prosperity, we must efficiently use these funds and improve coordination among stakeholders to help over one million OYYA reengage in education or employment.

POLICY PRIORITIES

Proposed Policy Recommendations

- **Enhanced Fiscal Transparency:** Require aggregation of existing workforce data for Texans aged 16-24
- **Strategic Planning:** Require local workforce boards to include strategies for engaging OYYA
- **Increased Community Engagement:** Notify workforce officials when subsidized job creation exceeds 100 jobs

Policy Impact

- Improve program evaluation and enable policymakers to make data-driven decisions
- Promote population awareness and consistent, targeted approaches for OYYA needs
- Improve workforce preparation, including job training, childcare, and transportation support

HOUSE DISTRICT #60

2,233 youth ages 16-24 are **not** enrolled in school and **not** working (13%).

Opportunity youth	Count	Percent
Male	1,036	46%
Female	1,197	54%
No health insurance	777	35%
No college (age 20-24)	1,028	76%
Parenting	577	26%

IMPACT ON WAGES

On average, youth who experienced disconnection in **HD 60** make **\$16,539.00** less annually by age 28.

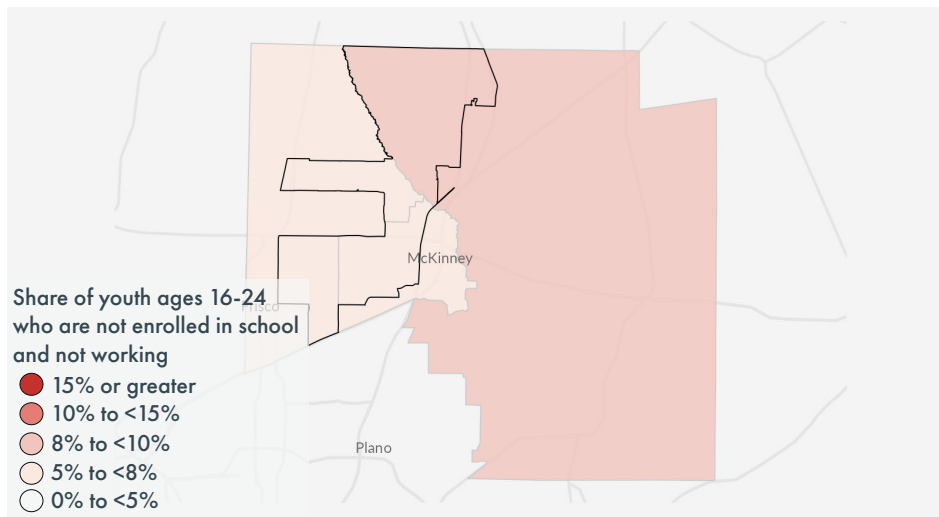

Sources: IPUMS American Community Survey 2018-2022; Wage impact data comes from Ray Marshall Center’s analysis, as part of Evaluation of Services for Texas Opportunity Youth (ESTOY) project, of data from UT Austin’s Texas Education Research Center (<https://sites.utexas.edu/raymarshallcenter/>). POLICY PRIORITIES

Proposed Policy Recommendations

- Enhanced Fiscal Transparency:** Require aggregation of existing workforce data for Texans aged 16-24
- Strategic Planning:** Require local workforce boards to include strategies for engaging OYYA
- Increased Community Engagement:** Notify workforce officials when subsidized job creation exceeds 100 jobs

Policy Impact

- Improve program evaluation and enable policymakers to make data-driven decisions
- Promote population awareness and consistent, targeted approaches for OYYA needs
- Improve workforce preparation, including job training, childcare, and transportation support

HOUSE DISTRICT #74

3,673 youth ages 16-24 are **not** enrolled in school and **not** working (19%).

Opportunity youth	Count	Percent
Male	2,003	55%
Female	1,669	45%
No health insurance	1,939	53%
No college (age 20-24)	2,037	73%
Parenting	702	19%

IMPACT ON WAGES

On average, youth who experienced disconnection in **HD 74** make **\$12,912.00** less annually by age 28.

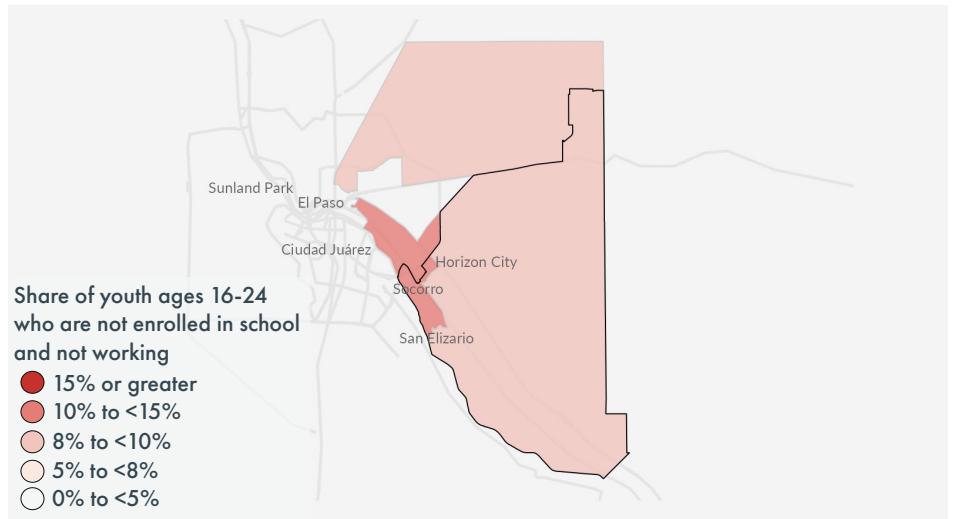

Sources: IPUMS American Community Survey 2018-2022; Wage impact data comes from Ray Marshall Center’s analysis, as part of Evaluation of Services for Texas Opportunity Youth (ESTOY) project, of data from UT Austin’s Texas Education Research Center (<https://sites.utexas.edu/raymarshallcenter/>). State average is the weighted average of all state districts.

OPPORTUNITY YOUTH & WORKFORCE PRODUCTIVITY IN TEXAS

House District #75

Rep. Mary E. González

OPPORTUNITY YOUTH IN TEXAS

Young Texans aged 16-24 are crucial to not only our workforce but our economic future, yet **13.1% are neither in school nor working**. These opportunity youth and young adults (OYYA) need support to reconnect and become college or career ready.

In 2025, the Texas Workforce Commission plans to allocate **over \$80 million** in WIOA funds—the primary resource for OYYA—to youth programs. To secure Texas' prosperity, we must efficiently use these funds and improve coordination among stakeholders to help over one million OYYA reengage in education or employment.

POLICY PRIORITIES

Proposed Policy Recommendations

- Enhanced Fiscal Transparency:** Require aggregation of existing workforce data for Texans aged 16-24
- Strategic Planning:** Require local workforce boards to include strategies for engaging OYYA
- Increased Community Engagement:** Notify workforce officials when subsidized job creation exceeds 100 jobs

Policy Impact

- Improve program evaluation and enable policymakers to make data-driven decisions
- Promote population awareness and consistent, targeted approaches for OYYA needs
- Improve workforce preparation, including job training, childcare, and transportation support

HOUSE DISTRICT #75

2,544 youth ages 16-24 are **not** enrolled in school and **not** working (11%).

OPPORTUNITY YOUTH IN TEXAS

Young Texans aged 16-24 are crucial to not only our workforce but our economic future, yet **13.1% are neither in school nor working**. These opportunity youth and young adults (OYYA) need support to reconnect and become college or career ready.

In 2025, the Texas Workforce Commission plans to allocate **over \$80 million** in WIOA funds—the primary resource for OYYA—to youth programs. To secure Texas' prosperity, we must efficiently use these funds and improve coordination among stakeholders to help over one million OYYA reengage in education or employment.

POLICY PRIORITIES

Proposed Policy Recommendations

- **Enhanced Fiscal Transparency:** Require aggregation of existing workforce data for Texans aged 16-24
- **Strategic Planning:** Require local workforce boards to include strategies for engaging OYYA
- **Increased Community Engagement:** Notify workforce officials when subsidized job creation exceeds 100 jobs

Policy Impact

- Improve program evaluation and enable policymakers to make data-driven decisions
- Promote population awareness and consistent, targeted approaches for OYYA needs
- Improve workforce preparation, including job training, childcare, and transportation support

HOUSE DISTRICT #88

2,907 youth ages 16-24 are **not** enrolled in school and **not** working (18%).

Opportunity youth	Count	Percent
Male	1,509	52%
Female	1,397	48%
No health insurance	1,359	47%
No college (age 20-24)	1,598	76%
Parenting	420	14%

IMPACT ON WAGES

On average, youth who experienced disconnection in **HD 88** make **\$18,245.00** less annually by age 28.

OPPORTUNITY YOUTH & WORKFORCE PRODUCTIVITY IN TEXAS

House District #102
Rep. Ana-Maria Ramos

OPPORTUNITY YOUTH IN TEXAS

Young Texans aged 16-24 are crucial to not only our workforce but our economic future, yet **13.1% are neither in school nor working**. These opportunity youth and young adults (OYYA) need support to reconnect and become college or career ready.

In 2025, the Texas Workforce Commission plans to allocate **over \$80 million** in WIOA funds—the primary resource for OYYA—to youth programs. To secure Texas' prosperity, we must efficiently use these funds and improve coordination among stakeholders to help over one million OYYA reengage in education or employment.

POLICY PRIORITIES

Proposed Policy Recommendations

- **Enhanced Fiscal Transparency:** Require aggregation of existing workforce data for Texans aged 16-24
- **Strategic Planning:** Require local workforce boards to include strategies for engaging OYYA
- **Increased Community Engagement:** Notify workforce officials when subsidized job creation exceeds 100 jobs

Policy Impact

- Improve program evaluation and enable policymakers to make data-driven decisions
- Promote population awareness and consistent, targeted approaches for OYYA needs
- Improve workforce preparation, including job training, childcare, and transportation support

HOUSE DISTRICT #102

1,504 youth ages 16-24 are **not** enrolled in school and **not** working (11%).

OPPORTUNITY YOUTH & WORKFORCE PRODUCTIVITY IN TEXAS

House District #115

Rep. Cassandra Hernandez

OPPORTUNITY YOUTH IN TEXAS

Young Texans aged 16-24 are crucial to not only our workforce but our economic future, yet **13.1% are neither in school nor working**. These opportunity youth and young adults (OYYA) need support to reconnect and become college or career ready.

In 2025, the Texas Workforce Commission plans to allocate **over \$80 million** in WIOA funds—the primary resource for OYYA—to youth programs. To secure Texas' prosperity, we must efficiently use these funds and improve coordination among stakeholders to help over one million OYYA reengage in education or employment.

POLICY PRIORITIES

Proposed Policy Recommendations

- Enhanced Fiscal Transparency:** Require aggregation of existing workforce data for Texans aged 16-24
- Strategic Planning:** Require local workforce boards to include strategies for engaging OYYA
- Increased Community Engagement:** Notify workforce officials when subsidized job creation exceeds 100 jobs

Policy Impact

- Improve program evaluation and enable policymakers to make data-driven decisions
- Promote population awareness and consistent, targeted approaches for OYYA needs
- Improve workforce preparation, including job training, childcare, and transportation support

- Improve workforce preparation, including job training, childcare, and transportation support

HOUSE DISTRICT #129

1,628 youth ages 16-24 are **not** enrolled in school and **not** working (11%).

Opportunity youth	Count	Percent
Male	837	51%
Female	791	49%
No health insurance	700	43%
No college (age 20-24)	810	66%
Parenting	248	15%

IMPACT ON WAGES

On average, youth who experienced disconnection in **HD 129** make **\$18,207.00** less annually by age 28.

Sources: IPUMS American Community Survey 2018-2022; Wage impact data comes from Ray Marshall Center's analysis, as part of Evaluation of Services for Texas Opportunity Youth (ESTOY) project, of data from UT Austin's Texas Education Research Center (<https://sites.utexas.edu/raymarshallcenter/>). State average is the weighted average of all state districts.

OPPORTUNITY YOUTH & WORKFORCE PRODUCTIVITY IN TEXAS

House District #130
Rep. Tom Oliverson

OPPORTUNITY YOUTH IN TEXAS

Young Texans aged 16-24 are crucial to not only our workforce but our economic future, yet **13.1% are neither in school nor working**. These opportunity youth and young adults (OYYA) need support to reconnect and become college or career ready.

In 2025, the Texas Workforce Commission plans to allocate **over \$80 million** in WIOA funds—the primary resource for OYYA—to youth programs. To secure Texas' prosperity, we must efficiently use these funds and improve coordination among stakeholders to help over one million OYYA reengage in education or employment.

POLICY PRIORITIES

Proposed Policy Recommendations

- **Enhanced Fiscal Transparency:** Require aggregation of existing workforce data for Texans aged 16-24
- **Strategic Planning:** Require local workforce boards to include strategies for engaging OYYA
- **Increased Community Engagement:** Notify workforce officials when subsidized job creation exceeds 100 jobs

Policy Impact

- Improve program evaluation and enable policymakers to make data-driven decisions
- Promote population awareness and consistent, targeted approaches for OYYA needs
- Improve workforce preparation, including job training, childcare, and transportation support

HOUSE DISTRICT #130

1,949 youth ages 16-24 are **not** enrolled in school and **not** working (12%).

Opportunity youth	Count	Percent

Male	1,057	47%
Female	1,202	53%
No health insurance	1,128	50%
No college (age 20-24)	1,240	78%
Parenting	635	28%

IMPACT ON WAGES

On average, youth who experienced disconnection in **HD 144** make **\$17,258.00** less annually by age 28.

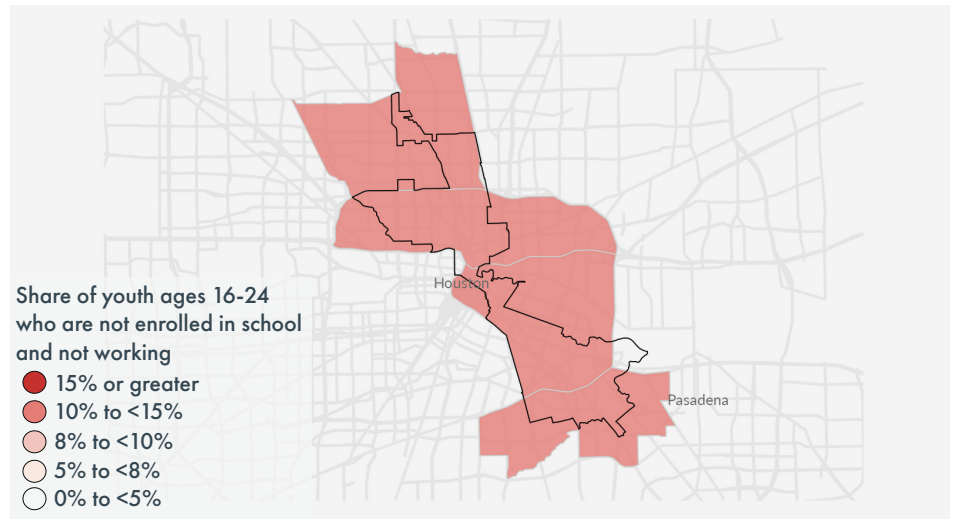

Sources: IPUMS American Community Survey 2018-2022; Wage impact data comes from Ray Marshall Center's analysis, as part of Evaluation of Services for Texas Opportunity Youth (ESTOY) project, of data from UT Austin's Texas Education Research Center (<https://sites.utexas.edu/raymarshallcenter/>). State average is the weighted average of all state districts.

OPPORTUNITY YOUTH & WORKFORCE PRODUCTIVITY IN TEXAS

House District #145

Rep. Christina Morales

OPPORTUNITY YOUTH IN TEXAS

Young Texans aged 16-24 are crucial to not only our workforce but our economic future, yet **13.1% are neither in school nor working**. These opportunity youth and young adults (OYYA) need support to reconnect and become college or career ready.

In 2025, the Texas Workforce Commission plans to allocate **over \$80 million** in WIOA funds—the primary resource for OYYA—to youth programs. To secure Texas' prosperity, we must efficiently use these funds and improve coordination among stakeholders to help over one million OYYA reengage in education or employment.

POLICY PRIORITIES

Proposed Policy Recommendations

- **Enhanced Fiscal Transparency:** Require aggregation of existing workforce data for Texans aged 16-24
- **Strategic Planning:** Require local workforce boards to include strategies for engaging OYYA
- **Increased Community Engagement:** Notify workforce officials when subsidized job creation exceeds 100 jobs

Policy Impact

- Improve program evaluation and enable policymakers to make data-driven decisions
- Promote population awareness and consistent, targeted approaches for OYYA needs
- Improve workforce preparation, including job training, childcare, and transportation support

HOUSE DISTRICT #145

2,844 youth ages 16-24 are **not** enrolled in school and **not** working (20%).

Opportunity youth	Count	Percent
Male	1,513	53%
Female	1,331	47%
No health insurance	1,636	58%
No college (age 20-24)	1,568	77%
Parenting	504	18%

IMPACT ON WAGES

On average, youth who experienced disconnection in **HD 145** make **\$16,443.00** less annually by age 28.

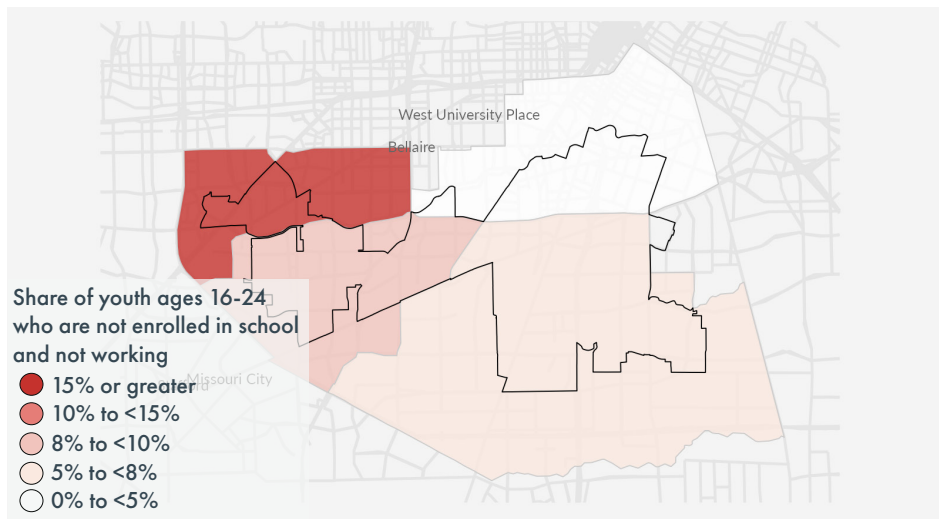

Sources: IPUMS American Community Survey 2018-2022; Wage impact data comes from Ray Marshall Center's analysis, as part of Evaluation of Services for Texas Opportunity Youth (ESTOY) project, of data from UT Austin's Texas Education Research Center (<https://sites.utexas.edu/raymarshallcenter/>).
