

Unpacking the TEKS

Texas Essential Knowledge and Skills (TEKS) and Student Expectations (SE)

TEKS/SE:

What should students already know? <i>Use TEA vertical alignment guide to track the history of the TEKS/SE.</i> https://www.texasgateway.org/resource/vertical-alignment-charts-revised-mathematics-teks	What are students expected to do? <i>Look at the verb and how it's assessed on the state's assessment.</i> https://iq.lead4ward.com/ <i>Choose, grade level, subject and SE to view tested questions from previous years. See questions at the end of document.</i>	What are possible misconceptions? <i>Look at the context of the text to identify where students might get lost when showing mastery.</i> <i>Work the questions at the end and examine the data to make conjectures about the errors students may have encountered.</i>	How should the instruction look? <i>What moves/strategies will the teacher need to do so that students master the TEKS?</i>
