Paving the Way to Quality

CHILDREN AT RISK has released its second analysis of Local Workforce Development Board (LWDB) spending across Texas. Focusing on investments made in the 2024 Board Calendar Year, and noting statewide investment trends prioritizing professional development and training for child care teachers, improvements to infant and toddler classrooms, and staff retention strategies.

Read this year's report at
<https://childrenatrisk.org/paving-the-way-to-quality-2026/>

Child Care Deserts Data

children **atRisk**

What is a Desert?

Child Care Deserts

Zip codes (US Census ZCTAs) with at least 30 children (ages 0-5) where the demand for child care is three times greater or more than the supply of child care.

Subsidized Child Care Deserts

Zip codes with at least 30 low-income children (ages 0-5) where the demand for subsidized child care is three times greater or more than the supply of subsidized child care.

TRS Rising Star Deserts

Zip codes with at least 30 low-income children (ages 0-5) where the demand for subsidized child care is three times greater or more than the supply of Texas Rising Star-certified child care.

Chronic Child Care Deserts

Zip codes with at least 30 low-income children (ages 0-5) where the demand for subsidized child care is three times greater or more than the supply of care for that category for **three consecutive years**.

Using Results in Advocacy

children **atRisk**

The Texas Early Childhood Ecosystem

ACCESS

47% of all zip codes in Texas qualify as Child Care Deserts for low-income children, meaning that 3x more children live in the zip code than the number of available child care slots. Children deserve equitable access to safe care that supports their health, learning, and development.

FAMILIES

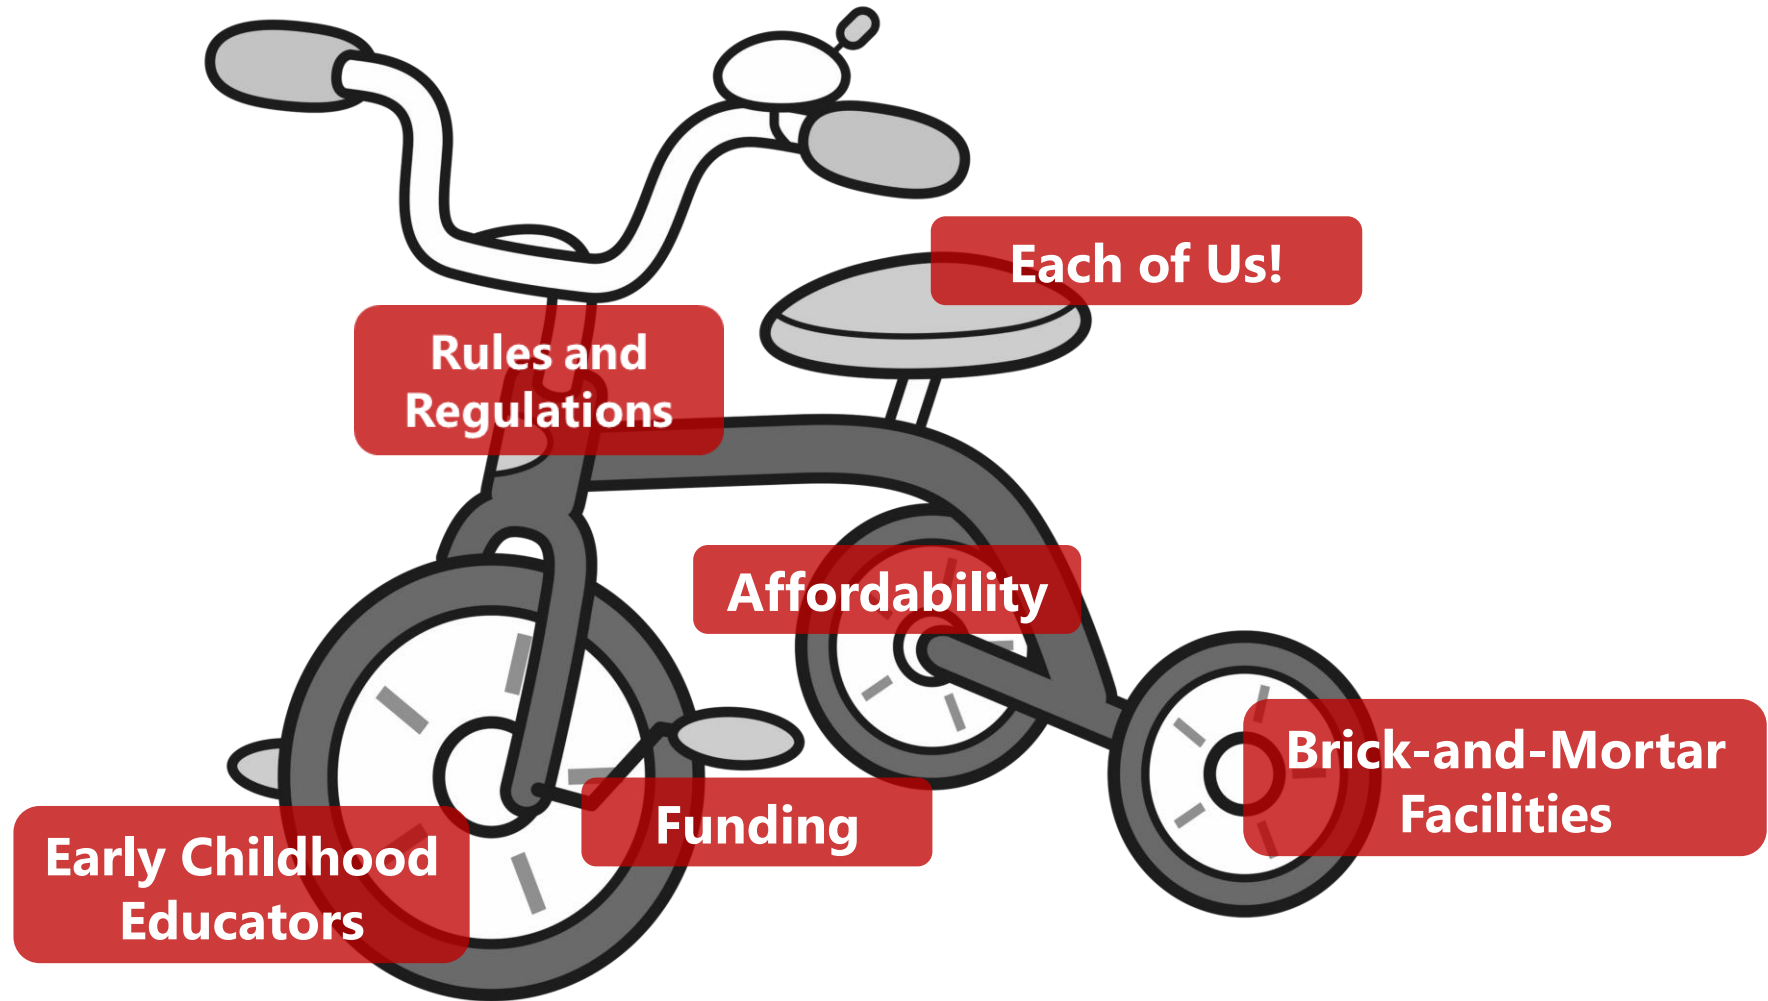

In Texas, caring for an infant and toddler can cost 10-50% of many working families' annual earnings. According to federal recommendations, child care should cost no more than 7% of a family's income. Families need affordable care in their communities to be able to participate in the workforce.

EDUCATORS

ECE Workforce is 6 times more likely to live in poverty than elementary and middle schoolteachers.

43% of Early educator households participate in one or more public safety net programs. Early Childhood Educators deserve a living wage.

The Tricycle for Success

Governance of Early Childhood Education

H.B. 117

(Schoolcraft)

Establishes a Governor's Task Force on the Governance of Early Childhood Education and Care, a step toward improving coordination, accountability, and outcomes for Texas children.

H.B. 4903

(Harris Davila & Birdwell)

Establishes a Quad Agency Child Care Initiative focused on collaboration, coordinating policies, and reviewing and streamlining regulations among the participating agencies, which would include TWC, HHSC, DFPS, and TEA.

Sunset Review

Commission

DFPS, HHSC, DSHS, & TWC are all scheduled for the 2026-2027 Review Cycle, with recommendations reported in the 90th Legislative Session.

State of Texas Current ECE Governance Structure

Health and Human Services Commission

Community Voices | Child Care Survey Respondents

Recommendations | Child Care Survey & Texas Tour

A woman with dark hair, wearing a light blue shirt and dark pants, is sitting on a light-colored carpeted floor in a playroom. She is surrounded by four children: a boy in a white shirt and dark overalls, a girl in a floral dress, a girl in a dark patterned dress, and a boy in a red shirt. They are all looking towards the woman, who has her hands open as if speaking or explaining something. In the background, there is a blue round table and some toys.

Governance & Systemwide Coordination

Design a purposeful unified governance with systemwide coordination to improve efficiency and quality

Identify a person/entity/agency with decision-making authority over ALL the programs that impact child care and development services (HHSC/TWC/DFPS/DSHS) to improve efficiency and effectiveness of the system.

Efficiency

Improve efficiency by reviewing Local Workforce Development Board service areas to better align resources with today's population, community needs and economic realities

Conduct a comprehensive review of the current LWDB service areas to ensure a balanced and strategic distribution of resources aligned with today's population patterns, community needs, and economic realities, and community realities.

Recommendations | Child Care Survey & Texas Tour

Application & Access Streamlining

Streamline and modernize child care systems to improve access, efficiency, and transparency for families and providers, enabling the state to serve more families with existing resources

Create a coordinated intake and referral system across TWC, HHSC, and other relevant agencies so that families can access multiple programs—workforce, human services, and education—through a single-entry point. This cost-saving recommendation will reduce duplication of resources and ensure that families are connected to all services for which they are eligible.

- Create a common application form for providers to access programs in TWC & HHSC
- Develop parent-facing portals, either standalone or integrated into the existing childcare availability portal, to provide real-time information on scholarship availability, eligibility, waitlists, and application processing times through a transparent public dashboard.

Recommendations | Child Care Survey & Texas Tour

Regulatory & Implementation Alignment

Synthesize key regulations to reduce confusion and improve regulatory alignment

Require coordinated, agency-wide training across all regions of the state for relevant agencies and programs on child care minimum standards and Texas Rising Star (TRS) standards, including their interpretation and application.

Ensure that all TWC TRS mentors and HHSC Child Care Regulation staff receive comprehensive training to provide consistent guidance and strengthen alignment between TRS standards and state licensing requirements.

Recommendations | Child Care Survey & Texas Tour

Contracting Accountability and Performance Management

Improve oversight of contracted services to ensure quality performance

Develop a system to ensure coordination among LWDB Contractors so that programs are delivered uniformly statewide.

Conduct a comprehensive audit of the effectiveness of how TWC uses CCDBG funds, particularly quality initiatives and infant/toddler quality initiatives, while developing and auditing user-friendly technology systems, including parent-facing portals and the CCS platform (TX3C/KinderConnect).

Access for Children With Disabilities

Improve access to child care services for families of children with disabilities

Increase use of differential rates for children with special needs by expanding the eligible factors that earn the enhanced rate and simplifying the application process to make it easier for providers to secure the enhanced rate.

Create an inclusion badge to recognize programs that go above and beyond in serving children with disabilities or developmental delays and their families and establish and administer a grant program for providers who earn these optional certifications.

Promote and provide deeper guidance on establishing pre-k partnerships for supporting children with disabilities.

A child is riding a green and white tricycle on a paved surface. The child is wearing a yellow shirt with smiley faces and dark pants. The tricycle has large green wheels and a white frame. The background is a blurred asphalt surface.
